Career Objective

Aspiring Software Engineer seeking an opportunity to contribute to innovative and scalable applications in a growth-oriented organization. Strong problem-solving mindset with a passion for building efficient and user-centric solutions. Eager to learn new technologies and adapt quickly to dynamic development environments. Looking to leverage my knowledge and continuously improve while delivering high-quality results.

Key Skills

Programming:	Java, Python, SQL
Web Technologies:	HTML, CSS, JavaScript
Tools & Technologies:	GitHub, VS Code, Visual Studio, SQL Server
Cloud & Platforms:	AWS (EC2, S3, VPC, Load Balancer)
Soft Skills:	Problem Solving, Team Collaboration, Leadership

Certifications

- AWS CLOUD - Star Certification
- AWS CLOUD - QIRMS

Internships

Full Stack Developer Intern – ASK Technologies | Mar 2024 – Jun 2024

- Developed and integrated frontend and backend components for web applications, ensuring smooth data flow
- Built and integrated secure authentication systems with proper input validation and session management
- Optimized frontend performance by improving UI responsiveness, reducing load time, and enhancing overall user experience

Web Development Intern – Academor | Jun 2023 – Jul 2023

- Created static and responsive web pages using HTML, CSS, and JavaScript focusing on layout and design principles
- Implemented structured layouts and styling techniques to ensure consistency and cross-device compatibility
- Applied core frontend concepts to improve usability, accessibility, and visual design of web interfaces

Projects

Blockchain-Based Secure Voting System

- Developed a blockchain-based voting system for secure and transparent voting, implementing cryptographic hashing for vote validation and data integrity
- Designed authentication and verification mechanisms to prevent duplicate voting and ensure fairness
- Technologies: Python, Blockchain Concepts, Cryptography (Hashing), Data Structures

AWS Secure S3 Access using VPC Endpoints

- Designed a secure architecture to enable private access to S3 using VPC endpoints
- Configured VPC, routing tables, and IAM policies to restrict public access
- Ensured secure data transfer within AWS by eliminating exposure to the public internet

Education

B.Tech – Computer Science & Engineering, Sathyabama Institute of Science and Technology (2020–2024)
| CGPA: 8.22

Intermediate – MPC, Abhyaas Junior College (2018–2020) | CGPA: 7.65

Class X, Good Shepherd English Medium School (2018) | CGPA: 9.00
